## Certificate of Analysis

|                     |                                   |
|---------------------|-----------------------------------|
| <b>Product Name</b> | Bentonite Powder (Cosmetic Grade) |
|---------------------|-----------------------------------|

### **Chemical Analysis**

|                      |                    |  |
|----------------------|--------------------|--|
| Description          | A Very Fine Powder | A Very Fine, Pale Buff Powder, Almost From Gritty Particles. |
| Bulk Density         | Complies           | 0.82 g/ml  |
| Mesh Fineness        | 1.11%              | Retention on 200# Sieve                                      |
| pH                   | 9.29               | 9.0 to 10.5  |
| Heavy Metals         | NMT 50 ppm         | <500 ppm   |
| Sedimentation Volume | 1.22 ml            | NMT 2 ml   |
| Swelling Powder      | 30 ml              | NLT 24 ml  |
| Loss on Drying       | 9.44%              | NMT 15.0%  |
| Gel Formation Index  | Complies           | NLT 50 ml  |
| Microbial Limit      | Complies           | 1.0 g is Free From E. Coil                                   |
